# Focus App

## Inspire Productivity.

### Abstract

An organic combination of a calendar, to-do list, user dashboard, multi-user goal tracking game and daily motivational quotes all in one app. Improve your productivity with Focus!

Targeted at students and working adults, Focus is a highly customisable one-stage time management app.

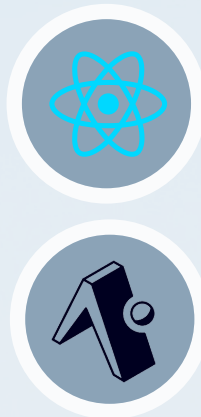

Start off your day with our motivational quotes, view your weekly events in a clearly organised calendar and track your goals with a to-do list.

Choose your preferred colour theme and avatars and compare your progress with your friends!

Begin your productive life with Focus today!

**React Native** is an open-sourced software framework library using JavaScript. We develop our user functions and game components based on this. We also use **Expo CLI** - a command-line tool, to run our app

U  
I

**Figma** is a web-based vector graphics editor. We collaborated on Figma to draw prototypes and interfaces. We also used **Photoshop** with avatar and game components design.
